

# Bluebeam® PDF Revu®

Digitize your projects with Bluebeam's powerful PDF creation, markup and editing tools to save time, share information more efficiently and significantly reduce printing and shipping costs. Get inspired by these stories.

## COWI Uses Bluebeam Enterprise-Wide

Leading European engineering consulting firm COWI is known worldwide for its impressive bridge and infrastructure projects. In 2008 after searching for an Adobe® Acrobat® alternative, the firm selected Bluebeam PDF Revu as its enterprise-wide PDF solution.

### How COWI uses Bluebeam

- Creates PDFs from AutoCAD®, Revit® and MS® Office using Bluebeam's advanced PDF plugin technology.
- Adds industry-standard PDF markups including text, change clouds, measurements and other comments to PDF drawings.
- Assembles PDF reports by using Bluebeam to add, delete, insert, reorder and rotate PDF pages.

## A Quantity Surveyor Measures Drawings 70% Faster with Revu

Quantity Surveyor Angus Cockburn uses Bluebeam's measurement tools to quickly complete bids and estimations. He first used Bluebeam on a 4-story, 1,500-room London hospital. While this project would have normally taken 2 weeks to complete with pen and paper, Revu enabled Angus to complete the job in just 3 days.

### How Angus uses Bluebeam

- Accurately detects drawing scales using Bluebeam's built-in calibration feature.
- Uses Bluebeam's measurement tool to simultaneously place PDF markups on drawings while calculating length, area, perimeter, diameter, angle, volume and radius measurements.
- Colour codes measurements by customising the markup colours directly from the Revu toolbar.

# Bluebeam Customers Rave about Revu

## COWI

"Bluebeam is speeding up the process of creating final PDF reports as we no longer have to go through an expert with knowledge on the Adobe products."

## Bechtel

"With Bluebeam, it's quick and simple to make PDFs for our customers."

## GE Water Technologies

"We love the program and we use it here daily. It is definitely one of the best time-saving tools we have purchased in a very long time."

## Buro Happold

"We evaluated a number of PDF solutions from a variety of vendors. Bluebeam provided us with all the functionality we needed at a very competitive price. It not only met our AutoCAD needs but also integrated very well with Office providing all our users with a user-friendly PDF solution."

## Balfour Beatty Construction

"Bluebeam has helped us...(create) a more sustainable communication process that has saved us time, money and provided better value to the project Owner and all project partners."

## ERM

"You people have a great product!! Adobe PDF comes nowhere close for speed, ease of use, and lack of hassles."

## WATG

"Bluebeam PDF Revu provides us with an easy solution. We were using another PDF software, but we discovered that Revu is the ideal solution for CAD users—it works better with large format drawings and produces a better PDF. Bluebeam allows us to easily create the PDFs our clients want. In fact, we do all of our client presentations using Bluebeam now."
