

MEASURE UP AND TAKEOFF WITH BLUEBEAM® PDF REVU®

Bluebeam PDF Revu is the easiest way to get takeoffs from PDFs. Simply use Bluebeam's built-in tools to calibrate your PDF drawings then measure length, areas with cutouts, perimeter, radius, diameter, angle, volume and count from PDFs, too. Bluebeam's smart takeoff tools enable you to label and track all measurements so you can easily perform material cost calculations from directly within Revu. You can even export your takeoff data to CSV or XML. With additional, industry-standard PDF markups including text, highlights, clouds, shapes and CAD symbols, PDF editing features for document assembly, as well as advanced VisualSearch™ options for quickly locating symbols on PDFs, Revu is a must-have solution for digitizing bids, estimates, quotes and more.

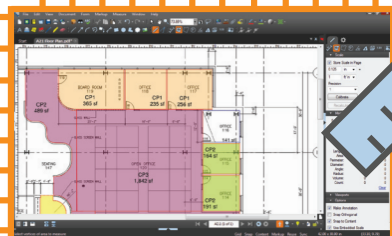

TAKEOFFS WITH BLUEBEAM ARE AS EASY AS 1-2-3

1. CALIBRATE

2. MEASURE

3. CALCULATE

Area	Volume	Count	Label	Finishes - Price	Estimate
191			CP2	CP2 \$2.00	\$382.00
124			CP3	CP3 \$3.00	\$372.00
121			CP3	CP3 \$3.00	\$363.00
118			CP3	CP1 \$1.00	\$118.00
106			CP3	CP3 \$3.00	\$318.00
842			CP3	CP3 \$3.00	\$5,526.00

BLUEBEAM'S TAKEOFF TOOLS DELIVER MEASURABLE RESULTS

A Consultant Uses Revu to Perform 2,700 Measurements in Just 3 Days

Consultant Angus Cockburn uses Bluebeam's measurement tools to quickly complete bids and estimations. He first used Bluebeam on a 4-story, 1,500-room London hospital. While this project would have normally taken 2 weeks to complete with pen and paper, Revu enabled Angus to complete the job in just 3 days - 70% time savings.

Bluebeam Helps Turner Construction Company Reduce Project Paper Costs by 63%

A Turner Construction Company project team used Bluebeam PDF Revu to significantly reduce paper related costs on the 230,000 square foot Cobb County Superior Court House in Marieta, GA. Using Bluebeam, the project team electronically redlined 70% of submittal drawings. Among the most commonly used features were Bluebeam's measurement tool for takeoffs, which Turner used to verify material pricing.

"Bluebeam's takeoff tools speed up the bidding process and allow for greater accuracy than our former pen and paper workflow."

- Allstate Steel Company

"Harmon selected Bluebeam for its robust, flexible PDF creation, markup and editing features that can be used across multiple departments. For example, Revu's measurement tools make it the perfect solution for our sales team to complete project estimates, while its PDF creation and binding features are ideal for our administrators who create project reports."

- Harmon, Inc.
