

Image Boards

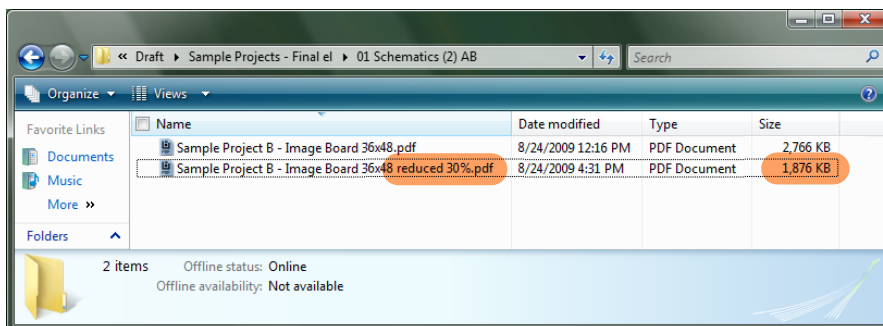

Paint colors can be closely matched to commercial paint chips using *Custom Colors* located under *Fill Color* in the *Properties* tab. Bluebeam Revu supports **True Colors**.

Import Images with the **Image** Tool

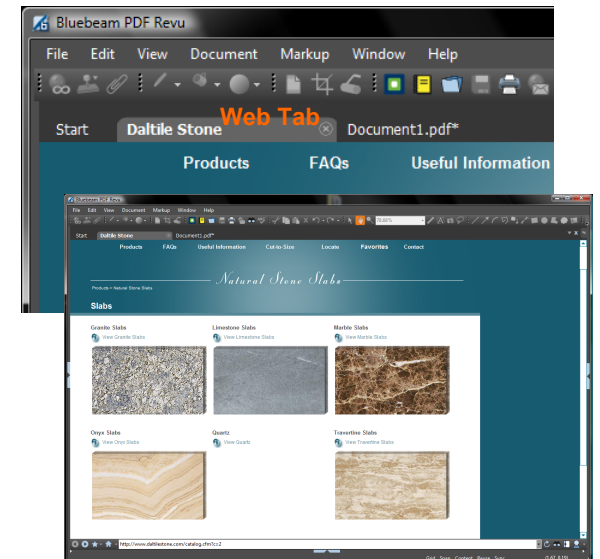

Creating an Image Board in PDF gives you a more portable product.

SAMPLE PROJECT B

Image Board

File sizes can grow quickly when working with images. Use the **Reduce File Size** feature under the *Document* drop down menu to conserve memory.

Open a **New Web Tab** within Revu to research product information, and to download images. Import images using the **Image** tool.
