

Product Manager

Celebrating our 10th year, Bluebeam Software is a growing technology company made up of people who like to push the limits, be different and do great things. Our award-winning software is used by leading architecture, engineering and construction firms to implement paperless workflows and redefine the way they work, consistently resulting in faster and clearer communication, improved collaboration and reduced costs. Behind the scenes, the Bluebeam Team works collaboratively towards the common goal of helping our customers do what they do better. At Bluebeam hard work is recognized, new hires are encouraged to share their ideas and the environment is friendly, energetic and fun.

We are looking for a **Product Manager** that will use their exceptional product instinct, significant technical expertise, passion for user-experience and outstanding business skills to help drive Bluebeam product goals and strategies. Our product manager will:

- Manage the product line from strategic planning to tactical activities
- Develop and implementing a company-wide go-to-market plan, working with all departments to execute
- Demonstrate strong product development/management functional knowledge, including an in-depth understanding of the processes, tools and techniques essential to delivering projects on-time within given resources allotted/available.
- Achieve a thorough understanding of the Bluebeam customer and relevant industries in order to help create more effective solutions
- Achieve intimate domain knowledge of existing Bluebeam products, becoming a subject matter expert with respect to current and anticipated functionality, workflows and integration points with other systems
- Use judgment and analysis to help prioritize areas for product enhancement
- Translate analysis into functional requirements documentation for existing and future applications
- Work with exceptional engineers to develop and launch new products and continuously improve existing products
- Be a resource to Marketing to inform the development of effective product marketing materials including brochures, case studies, success stories, fact sheets, use cases, white papers, etc.
- Monitor the competitive landscape, identifying relevant market, platform and product trends
- Partner closely with a wide range of stakeholders – including Operations, Account Service, Marketing, Engineering and Quality Assurance - to ensure that product

design, modifications and implementation accurately reflect the full range of market, business and functional requirements

We are a proactive, positive, tight-knit team with a great sense of humor and passion for our work. Our next team member needs to exhibit these qualities as well as have the following:

Knowledge and Skills

- 3+ years of experience in software product development initiatives, including creation of business and/or functional requirements documentation
- Concept to completion experience on at least one shipped product, as well as driving continual improvements to existing products strongly preferred
- Strong understanding of all aspects of the software development process
- Passion for agile development methodologies and/or experience as a Scrum Product Owner strongly preferred
- Demonstrated success in building relationships at all levels of an organization
- Bachelor's degree; Computer Science / Engineering degree a plus
- Strong ability to plan and manage multiple projects in parallel. Organized.
- Ability to learn quickly and adapt based on the needs of customers and Bluebeam
- Ability to work effectively cross-functionally with multiple business and technology units
- Able to drive the collection and analysis of essential metrics, and develop informed business decisions based on your findings
- Excellent communication, presentation, collaboration and teamwork skills
- Exceptional quantitative and analytical abilities
- Desire to "do-what-it-takes" to drive success
- Ability to adapt quickly to the ever-changing needs of a dynamic development environment
- Ability to work in the U.S. without employer sponsorship

If you think you are a good match for the Bluebeam team, please send the following to resumes@bluebeam.com:
