

View Menu

Tabs – Display available Tabs. A checkmark next to the tab indicates that it is displayed. Click the left mouse button to turn the tab on/off.

Toolbars – Display Toolbars that are available in the main window.

Menu Bar – Hide the Menu Bar. To open the Menu bar, press **F9**.

Status Bar – Toggle the status bar message at the bottom of the Revu window on/off. It contains tool hints, size of the active PDF page and X,Y mouse coordinates on the screen.

Navigation Bar – Toggle on/of the Navigation Bar at the bottom of the main document screen.

Pan – Enable Pan mode with the left mouse button.

Zoom – Enable Zoom mode with the left mouse button (Zoom *in* is the default). Hold the **Ctrl** key down to Zoom *out*.

Actual Size – Set the zoom level of the page to 100% in the main workspace window.

Fit Page – Fit the active page both vertically and horizontally.

Fit Width – Fit the page horizontally in the workspace.

Page Layout – Select one of four modes for displaying multi-paged PDFs (see **Viewing Modes** section above).

Rotate View – Turn the view of the PDF in 90-degree increments either clockwise or counterclockwise.

Navigation – Same settings as the Navigation Panel.

Rulers – Toggle the ruler on/off. The Ruler appears along the edge of the workspace and can be set to Inches or Centimeters.

Refresh – Redraws the currently active workspace.
