

The Sessions

Mortenson Construction Case Study Presentation- Communicating in Real Time with Bluebeam® Studio™

Mortenson Construction is currently building the Ralph L. Carr Colorado Judicial Center in Denver, Colorado. To streamline project tracking, the project team is using Bluebeam Revu® and its online collaboration feature, Studio, throughout the building process, resulting in an average of 40% time savings in the in-wall and punch list inspection and sign off process. This presentation will also introduce the use of Studio with tracking doors, frames and hardware, and a few other interesting uses. Join this case study presentation to learn more about how Mortenson and its sub-contractors are using Revu and Studio, and gain valuable insights on how to replicate this workflow.

David Stone, Integrated Construction Manager, AIA, DBIA, LEED AP

Nick Pfenning, Project Engineer

Sarah Morton, Senior Project Engineer

Turner Construction Company Case Study Presentation- Turner Linked: The Fusion of SharePoint®, Bluebeam Revu, & a Customized HTML IVUI Dashboard

Taking a holistic approach to construction document management, Turner Construction Company's San Diego Airport T2W Expansion project team has developed a unique and user-friendly system for managing digital project documents. Turner Linked fuses the power of Microsoft SharePoint 2010 for storing and organizing documents, Bluebeam Revu for processing and annotating documents and a customized HTML IVUI (Intuitive Visual User Interface) for navigating to documents. Join this case study presentation for a real-world discussion on how Revu's integration with those document management systems can reduce labor time by 50% and render a 84% information distribution approval rating, truly taking digital project workflows to the next level.

Terriann Nohilly, Field Engineer, LEED AP, BD+C

Setting Up a Project

Get your next project up and running in no time. In this session you will learn how to create a smart PDF drawing set and improve project organization and communication. Use Links to add and manage hyperlinks, push out custom profiles and tool sets to team members, and upload project folders and files to Bluebeam Studio for easy collaboration and cloud storage.

Patrick Keller, Product Manager

Rodolfo Neuber, Software Engineer

Ryan Ligon, Sr. Software Engineer

3D PDFs

Take PDFs to a whole new dimension with 3D PDF creation and markup. Learn how to create a full-page 3D PDF, a U3D, or a copy of a 3D PDF with Revu's plug-ins to Revit®, Navisworks® Manage and Navisworks Simulate. Discover how to navigate through complex models and be amazed by Revu's cutting-edge PDF annotation technology, which allows you to add markups to 3D views.

Ben Gunderson, Lead Software Architect

Stuart Themudo, Technical Specialist

Cristi Tudusciuc, Software Engineer

Takeoffs & Estimation

Revu includes all of the tools you need to prepare your next bid as much as 70% faster. In this session, you will learn how to use Revu's built-in measurement tools for takeoffs, save custom measurements in the exclusive Tool Chest™, export measurements to Excel®, and use Custom Columns to add formulas to the built-in worksheet to calculate costs directly in Revu.

Chris Jervey, Account Manager

James Chambers, Regional Manager

Peter Noyes, Lead Systems Engineer

Punch

Revu revolutionizes the entire punch process by making it more efficient and cost-effective. This session will highlight how to use Spaces to define areas or rooms that automatically track markups. Pin custom punch symbols to toolbars for easy access, apply them to your PDF drawings to indicate defects and problems, and track their completion.

Michelle Dragin, Sr. Account Manager

Sasha Reed, Director of Account Services

Peter Noyes, Lead Systems Engineer

Collaborate in the Cloud

Create, share and collaborate in the cloud with project partners around the world. In this session you will learn how Bluebeam Studio combines the best of cloud storage and collaboration by acting as a light document management system. Upload project folders or any type of file to be viewed or checked out for offline editing, set user or group-based permissions and collaborate on the fly with PDF files stored in Studio.

Kristine Hopkins, Sr. Account Manager

Rodolfo Neuber, Software Engineer

Ryan Ligon, Sr. Software Engineer

Tips & Tricks / Ask the Developers

Learn to use Revu as efficiently as the engineers who designed it. Come to hear Bluebeam engineers share their top Tips & Tricks for using Revu, including keyboard shortcuts, settings, functions and more. By attending this session, you will learn a number of Bluebeam's coveted time-saving and customization tips, and leave with an invaluable list of ways to streamline your workflow. You'll also have an exclusive opportunity to "Ask the Developers" all your pressing Revu questions.

Peter Noyes, Lead Systems Engineer

Ben Gunderson, Lead Software Architect

Jon Rothberg, Software Engineer

Advanced Customization & Deployment

Revu is designed to support large-scale use within an organization. In this session, you will learn the best practices for deploying and maintaining Revu company-wide, how to seamlessly integrate Revu into ProjectWise® and SharePoint document management systems, and how to run Revu in a Citrix® Ready environment™.

James Chambers, Regional Manager

Brian Fong, Sr. Product Specialist

Justin Longworth, Technical Support Engineer

Bluebeam® eXtreme Conference

The Schedule

7:30-8:30 Registration & Breakfast - Target Terrace

8:30-8:45 Welcome - Target Terrace

9:00-9:45 Turner Construction Company Case Study Presentation - Theatre

"Turner Linked: The Fusion of SharePoint®, Bluebeam Revu®, & a Customized HTML IVUI Dashboard"

10:00-10:45 Sessions

Option 1: "3D PDFs" - Terrace Room

Option 2: "Setting up a Project" - Green Room

11:00-Noon Keynote Presentation - Theatre

with Richard Lee, President and CEO of Bluebeam Software

Noon-1:15 Lunch - Target Terrace

1:30-2:15 Mortenson Construction Case Study Presentation - Theatre

"Communicating in Real Time with Bluebeam Studio™"

2:30-3:15 Sessions

Option 1: "Collaborate in the Cloud" - Terrace Room

Option 2: "Takeoffs & Estimation" - Green Room

3:30-4:15 Sessions

Option 1: "Punch" - Terrace Room

Option 2: "Advanced Customization" - Green Room

4:30-5:15 Tips and Tricks/Ask the Developers - Theatre

5:30-8:00 Cocktail Reception - Target Terrace
