Bluebeam® PDF Revu®

PDF editing, markup and creation for a paperless workflow.

Create PDFs
One button PDFs from Office, batch processing, scan to PDF and PDF printer for all Windows files.
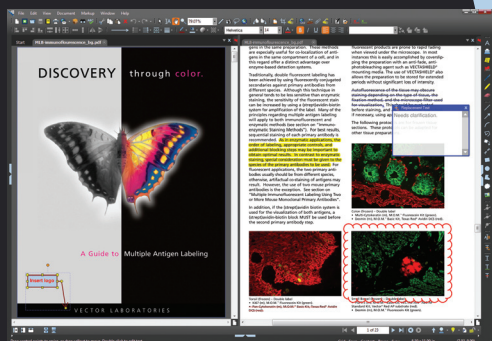

Markup PDFs
Add comments, symbols, stamps and signatures to PDF files, calculate takeoffs, and store custom markups in the Tool Chest.

Manage PDFs
Organize recent files, pin documents, access local and remote files, all from within the Revu interface.

Share PDFs
Connect, create and collaborate with anyone, anywhere, at any time.

Bluebeam PDF Revu is not just a solution for integrating best-in-class PDF creation, markup and editing into digital workflows, it's so much more. With a File Access tab that allows you to easily organize and manage recently opened PDF files, online collaboration with Bluebeam Studio™, and integration into ProjectWise® and SharePoint® document management systems, Bluebeam continues to refine the way you work.

Standard Edition

New in version 8

- File Access tab
- Markup sequencing
- SharePoint & ProjectWise integration
- Overlay pages
- Color processing
- Built-in worksheets with formulas
- Customizable toolbars
- Online collaboration with Studio

Why Bluebeam?

Still the most intuitive interface.
An interface that makes sense. Open Documents are displayed in popular tab form so you can easily switch between them, and our MultiView™ technology allows you to view up to 16 documents simultaneously. Modify the interface with a simple Profile change or create customized toolbars.

No hunting for markup tools.
Software features should be easy to use and find. Bluebeam's interface displays customizable toolbars so you can quickly access your markup tools and change their properties along the way. Our exclusive Tool Chest stores every markup and comment you make, and can be reused across sessions. Create custom tool sets with sequence and action markups and share them with colleagues around the world.

Connect, create and collaborate.
With Bluebeam Studio, time and place are no longer limits to what you can achieve. Start a session, upload your files, and invite who you like. Markup PDFs and chat instantly with team members across the globe or add markups on your own time. Sessions are also tracked in a Recents section for easy access. Plus, you can create a report of your Studio session to archive or share your documents, markups and chat conversations. Nice!

More files. Better access.
Save time finding and managing project documents. Bluebeam's File Access displays a list of recently opened PDF files that can be previewed or reopened with a mouse click. Search local or network drives with ease, pin or save files in categories to keep project documents organized and conveniently stored.

Totally integrated.
Accessing project documents just got easier. Bluebeam's seamless integration into ProjectWise and SharePoint document management systems further streamlines your workflow by allowing you to easily retrieve, markup and check-in documents directly from Revu's interface.

No more number crunching.
Take measurements and count from PDFs electronically. Bluebeam does all the work for you. Results are automatically displayed in a list that can be summarized and imported into Excel, or add formulas to the built-in worksheet to calculate costs in Revu.

Tablet users love it.
View and markup PDF files with the ease of your tablet pen. Bluebeam's complete PDF solution offers tablet-specific functionality like searchable ink, built-in TIP, pressure sensitivity, sequenced markups, custom interface and zooming.

For the savvy user.
Advanced editing features provide endless options. Combine PDFs and any other file in an organized PDF package. Customize stamps with Bluebeam's Stamp Editor. Create and save PDF templates. Insert hyperlinks, bookmarks and flags that link to important areas of a PDF such as signature lines. With digital signatures and password protection, you can safe guard your content before it's distributed.

A professional and affordable PDF solution

# seats	price/seat
1-4	$149
5-9	$129
10-24	$119
25-49	$109
50-99	$99
100-199	$89

350-499	$69
500-999	$59
1000+	$49

Prices in US dollars.

Bluebeam offers annual maintenance on all software. Training programs are also available. Contact Bluebeam or your authorized reseller for pricing.

"This minor software investment can save hundreds of thousands of dollars. In comparing two similar projects over six months, we realized an 83% savings in printing and courier fees on the Bluebeam project. That's more than $25,000 in savings, which doesn't even begin to account for the cost savings from increased productivity."
